iPuck

The interactive Ice Hockey Game
Sports, Show and Fun!

iPuck | Interactive Ice Hockey Game

iPuck is the new ice hockey and event game to offer variety and action on fairs and events in order to gain the interest of the audience.

Game concept

Via a camera, the player is integrated in the virtual gamesurface as a goal keeper. He now has to try to parry the computer animated pucks. The audience can watch the goal keeper's live activities to raise real stadium atmosphere.

Sound atmosphere

Due to stereosound iPuck is not only a visual but also an auditory experience and accents the different game situations.

iPuck | Features

Company-specific branding

Your product, claim and your logo is presented as part of the sports hall. Two advertising posters as well as the boards refer to you as sponsor.

Sustainable marketing effect

During every shot a screenshot is made and saved which can be printed or sent by bluetooth to a mobile phone afterwards. Thereby a sustainable marketing effect can be achieved.

Sports, show and fun

Ice hockey is rising in popularity. iPuck stays abreast of this trend. Linked with innovative technologies it will become the highlight of your events.

Individual adjustable level of difficulty for long-term fun

Adjust the speed or the amount of the virtual pucks to ensure the long-term amusement of your customers.

iPuck | Purposes

Screen

iPuck can be projected onto all displays or silver screens, e.g. LED-Panel. Moreover the action can be broadcast to large displays without any time lag.

Usage

- Entertainment
- Increase of attention
- Rise of popularity
- Creation of image
- Sales campaigns
- Competitions

Warranty for attention

By combining ice hockey with innovative technology, it is an event-tool with guaranteed attention.
