## Interactive Hockey Game

The new hockey and event game offers variety and action on fairs and events in order to gain the interest of the audience.

### Game concept

Via a camera, the player is integrated in the virtual gamesurface as a goal keeper. He now has to try to parry the computer animated balls. The audience can watch the goal keeper's live activities to raise real stadium atmosphere.

### Sound atmosphere

Due to stereosound it is not only a visual but also an auditory experience and accents the different game situations.

## Features

### Company-specific branding

Your product, claim and your logo is presented as part of the stadium. Two advertising posters as well as the boards refer to you as sponsor.

### Sustainable marketing effect

During every shot a screenshot is made and saved which can be printed or sent by bluetooth to a mobile phone afterwards. Thereby a sustainable marketing effect can be achieved.

### Sports, show and fun

Hockey is rising in popularity. **The interactive hockey game** stays abreast of this trend. Linked with innovative technologies it will become the highlight of your events.

### Individual adjustable level of difficulty for long-term fun

Adjust the speed or the amount of the virtual balls to ensure the long-term amusement of your customers.

## Purposes

### Screen

**The interactive hockey game** can be projected onto all displays or silver screens, e.g. LED-Panel. Moreover the action can be broadcast to large displays without any time lag.
